

Hard Plastic Fishing Float

Brand:

Call for Price: (07) 5478 1033

Description

Our hard plastic floats are **NOT** the cheapest we could buy. Beware of low quality floats that crack, sink and implode under pressure. We sell the best, most durable floats in Australia and we export them all over the world.

Floats come in many different sizes with one or two lugs. See table below. Used by longline and dropline fishermen because they have the deepest working depth and longest life.

Colours: Yellow and Orange

	Working Depth	Dia	Hole Dia	Wt.	Buoyancy
	300	240	15	1.05	8
	300	300	21.5	1.93	11.4
	350	360	22	3.45	24
