Short Description

12/0 Fujiyama EZ Baiter Hooks -100 Pack

Description

Fujiyama EZ Baiter Hooks were originally designed for commercial fishing but have proven to be a great tool for the sport fisherman targeting bottom species like Grouper, Trumpeter, Ling, Cod or Shark.

This hook is excellent for deep-sea fishing where you might not feel the first tug at your bait by a fish deep underneath the boat.

These hooks have a kirbed hook point for improved hooking potential and Duratin coating for high corrosion resistance.
